* The TER is calculated as a percentage of the average NAV of the portfolio incurred as charges, levies and fees in the management of the portfolio for a rolling 12 – month period to end March 2011.

A higher TER ratio does not necessarily imply a poor return nor does a low TER imply a good return. The current disclosed TER cannot be regarded as an indication of future TER's.

** The total TER includes a performance fee component as detailed.

As this is a recently launched fund, the TER cannot be accurately determined and will be in line with or higher than the quoted annual management fee.
